Road Map towards Home Grown School Feeding Programme(HGSFP)

01

03

School Selection

Pilot schools are selected (With and without water supply)

Water Project

Schools without water are supported through borehole drilling and solar installation

Introducing IGAs

Income Generating projects are introduced at the schools

- -Poultry projects
- Market Gardening
- -Irrigation
- -Tuckshops

Sustainable feeding projects

Schools use income and produce to feed children, starting with ECD level based on gvt guidelines on HGSFP
